

ACTIVATED CARBON

STALLION ENERGY'S Pvt. Ltd. is very well known for their consistent quality and timely supplies of ACTIVATED CARBON to various industries since last 3 decades.

We have already been catering the requirements of most of the consumers like Chemicals, Solvent Extraction, Bulk Drugs, Dyes Intermediates, Metal Refining and Water Purification Industries and Effluent Treatment Plants, all over India and exported to many Asian, Gulf and European countries.

We are offering Washed and Unwashed grade with desired pH and MB value. We also can offer high grade ACTIVATED CARBON equivalent to any make of Activated Carbon.

Also offer ACTIVATED CARBON with desired size and Iodine value, which is usually used for Tertiary Treatment in Effluent Treatment Plant.

We can also offer Bacteriostatic Activated Carbon which is a silver or palladium impregnated carbon to remove color, taste and odor from water. It also avoids bacterial growth in carbon beds. It protects the filters and cartridges from being contaminated and extends the life of ion-exchange beds.

Also note that we offer Activated Carbon with total microbial count as low as 10 CFU.
We are also fully equipped to supply tailor made Activated Carbon as per customer's requirement.
We assure you for consistent quality and timely supplies to your entire satisfaction.
